Goldilocks was walking in the forest by herself. At the same time the 3 bears were getting ready for a walk. Mama Bear Papa Bear and Baby Bear were hungry but their soup was too hot. Therefore they decided to go for a walk. Goldilocks came to the house. She looked in the window knocked on the door and went inside. She saw a big bowl of soup a medium bowl of soup and a small bowl of soup. She tried the big bowl but it was too spicy. She tried the medium bowl but it was too sweet. She tried the little bowl and it was perfect so she ate it all up. After eating she felt a little tired and wanted to sit down. She saw a big chair a medium chair and a small chair. The big chair was hard and it hurt her bottom. The medium chair was too soft and it smelled of perfume. The little chair was perfect so Goldilocks sat in it. After 10 minutes she wanted to go to sleep. She found 3 beds but only one felt right. She went to sleep in the smallest bed and began to have pleasant dreams.

At that time the 3 bears came home. They looked at their bowls and they weren't happy. Someone had eaten their food so they felt very angry. They ate a little bit and then went upstairs to sleep. Baby Bear cried. He saw Goldilocks in his bed. Right away Papa Bear started to yell and Goldilocks ran out of the bed. The three bears chased the little girl but she escaped. In conclusion everyone should have a good security system for their house.
